Fund Raising Activities

The Company has diversified its business operations and expanded its business to include more substantive property investment and development in Hong Kong through its acquisition of two parcels of land, the New Kowloon Inland Lot no. 6563 & New Kowloon Inland Lot no. 6564. The acquisitions of the said land parcels had been financed by the Group's internal resources, bank borrowings as well by way of shareholder's loans from HNA Finance I Co., Ltd. ("HNA Finance I"), the Group's controlling shareholder. In view of the Company's financing needs, the Board has considered various fund raising options. The Company has proceeded with the rights issue (the "Rights Issue"). Pursuant to the Rights Issue, the Company issued 2,268,331,806 rights shares at the subscription price of HK\$4.08 per rights share based on two rights share for every one existing share in issue on 26 May 2017. Out of the net proceeds of HK\$9,250 million raised, about HK\$6,931 million was used to set off against the amount due from the Company to HNA Finance I on a dollar-to-dollar basis upon the completion of the Rights Issue in June 2017, and about HK\$312 million was used to repay the Group's bank loans up to 30 June 2017. For details of the Rights Issue, please refer to the Company's announcements dated 28 March 2017, 27 April 2017 and 19 June 2017, the circular dated 29 April 2017 and the prospectus dated 29 May 2017.

Management Discussion and Analysis

Medium Term Note Programme

The Company announced on 7 April 2017 that Silverbell Asia Limited (the “Issuer”), a wholly-owned subsidiary of the Company, has established the USD1,000,000,000 guaranteed medium term note programme (the “MTN Programme”) under which it may offer and issue notes (the “Notes”) in tranches of an aggregate principal amount of up to USD1,000,000,000 (or its equivalent in other currencies) to professional investors only. Under the MTN Programme, the Issuer may from time to time issue the Notes which are unconditionally and irrevocably guaranteed by the Company.

It was announced on 17 August 2017 that the Company and the Issuer agreed with Guotai Junan Securities (Hong Kong) Limited to carry out a drawdown under the MTN Programme and issued the drawdown notes in an aggregate amount of HK\$220,000,000, 7% guaranteed notes due 2020 (the “Drawdown Notes”), which were exempted from, and not subject to, the registration requirements under the U.S. Securities Act. The Drawdown Notes are denominated in Hong Kong dollars and unconditionally and irrevocably guaranteed by the Company. The gross proceeds from the Drawdown Notes will be used for general corporate purposes of the Group.

Increase Authorised Share Capital

On 18 May 2017, the Company had increased the authorised share capital of the Company from HK\$200 million divided into 2,000,000,000 ordinary shares of par value of HK\$0.10 each to HK\$600 million divided into 6,000,000,000 ordinary shares of par value of HK\$0.10 each by creation of an additional 4,000,000,000 ordinary shares.

Prospects

Foundation piling and construction

In respect of the foundation piling and construction business, competition is expected to remain keen in the near future due to the growing number of market players and reduced available projects. Profit margins as a whole have been negatively affected given market factors such as labour shortages, rising operating costs and intensification of competition, causing an impact on segment results for the foundation piling business of the Group. This trend is expected to affect the Group’s financial results for the financial year ending 31 December 2017.

Property development

In respect of the property development business in the PRC, tightening policies which include expanding home purchase restrictions and raising the minimum down payment for mortgage, have caused overall property market sentiment to weaken. The tightening policies have slowed down the average price growth for new homes in first and second tier cities, while the policies implemented in third and fourth tier cities are different and focus on reducing existing inventories. As such, the Shenyang market has remained stable. The sales of remaining residential properties of the Shenyang project (The Pinnacle) are expected to remain steady due to The Pinnacle’s differentiation in terms of quality and value. Looking at the overall development of the PRC property market, it is expected that the tight regulation will continue in the second half of 2017 to ensure the stability of the PRC property market and new home prices are expected to remain stable due to the steady growth of China’s economy.

Management Discussion and Analysis

In respect of the property development business in Hong Kong, the HK Government implemented another round of property cooling measures in May 2017 as the Hong Kong Monetary Authority ordered banks to tighten credit assessments and cut loan amounts that banks can extend for properties sector with effect from 1 June 2017. The impact was short-lived as residential sales rebounded and home prices continued its upward trend for 14 months ended June 2017. Due to the trend of rising interest rates, combined with the impact of increasing housing supply in the next few years, we may expect a slowdown in residential price growth. The Group notes that competition in the real estate industry in Hong Kong is highly severe and may be further intensified as a result of any future government land supply policies and measures. Despite the fierce competition, the Hong Kong residential market still offers better opportunity when compared with highly contested PRC markets. The Group will explore more property development and related project management opportunities in Hong Kong and consider the viability of each project on its own merits with reference to the prevailing market conditions. According to the latest plan of the Group, the developments of the land parcels known as New Kowloon Inland Lot No. 6563 and No. 6564 are expected to provide approximately 1,200 units and presales could start by the end of 2019.

The Group will continue with its existing business developments as well as continue to maintain a prudent investment strategy and strive to strengthen the return to its shareholders. Regarding the proposal of the PRC government to develop “One Belt One Road” development strategy and the development of Guangdong-Hong Kong-Macau Bay Area, the Group will rely on its experience in the PRC, Hong Kong and Macau to bring on its advantageous position, and continue to seize suitable opportunities, including leveraging on synergies with its shareholder(s), to enhance growth potential of the Group.

As continuity is a key factor to the successful long term implementation of business plans, the Board of Directors believes that the roles of the Chairman and the Managing Director provide the Group with strong and consistent leadership and allow effective planning and execution of long-term business strategies. As such, the Board of Directors is of the view that the Chairman and the Managing Director should not be subject to retirement by rotation.

10. Trade and retention receivables

The Group has established credit policies that follow local industry standards. The average normal credit periods offered to trade customers other than for retention receivables are within 30 days, and are subject to periodic review by management. In view of the aforementioned and the fact that the Group's trade and retention receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade and retention receivable balances. Trade and retention receivables are non-interest-bearing.
